

The International Society for Contact Lens Research has reached its 31st year having become a preeminent source of research assessment and direction for its members. To the extent that ISCLR's meetings are also "think tanks," their influence extends beyond a small membership. The elements necessary to assess the current field at each meeting; and its deficiencies and future directions using the input of 100+ participants are the subjects for this book. Its formation and continuance through ophthalmologists, optometrists, manufacturers, and academics in many fields is the adhesive which have kept this a vibrant organization.
