

Lets be honest. The NASAA Series 66 Uniform Combined State Law Examination is a challenging securities licensing exam. Thats because the Series 66 exam, in conjunction with the FINRA Series 7 exam, qualifies you to be a securities agent and an investment adviser representative, and the regulators want to make sure that you know what youre talking about when you give investment advice or effect securities transactions. So what does this mean for someone studying for the exam? It means that you need to know about economic factors and business information; investment vehicle characteristics; client investment recommendations and strategies; and laws, regulations, and guidelines, including prohibition on unethical business practices. This new edition updated for the 2016 Series 66 exam also covers the valuation of equity securities, technical analysis, real estate investing, vatical and life settlements, structured products, precious metals, QRDOs, health savings accounts, high frequency trading, Regulation A, Regulation D, electronic communications and social media, broker-dealer and agent commissions, cyber security and data protection, the pay to play rule and anti-money laundering. The Solomon Exam Prep Guide to the Series 66 Exam works in three mutually reinforcing ways: it focuses on the most important aspects of the exam, provides you with plenty of exercises and quizzes, and continually reminds you why you have to take the test in the first place: to protect investors. With practice questions at the end of each chapter, as well as a helpful glossary, the Solomon Exam Prep Guide will give you the knowledge to tackle the NASAA Series 66 Uniform Combined State Law Examination with confidence!
